Expected Initial Earnings:

Considering a low and easily approachable target, a channel partner could earn considerable earnings.

The retailer being the key point of distribution, plays an important role and is awarded with better incentives compared to the existing products for example a mobile recharge retailer earns 2-3.5% profit on various recharge cards however incentives offered on SMSEcstasy recharges is 3-4 times higher!!

The stockist and distributor partners are benefitted with the sales made at the Retailer outlet and hence earn good returns. They don't necessarily need to focus on retailing and could multiply their earning potential by providing proper services, training and motivation to the Retailers.

Suggested initial targets for Retailers:*

- 4 x New Software Packs Activation = $249 \times 4 = 996/-$
- 10 to 15 Individual Messaging voucher (Rs. 250/- to Rs. 1,000/-) @ 10% = 1,500/-
- 2 - 5 Corporate Messaging vouchers (Rs. 7,400/- to Rs. 30,000/-) @ 7% = 4,500/-
- Total initial earnings: Rs. 7,000/- (Rupees Seven Thousand) per month.

Suggested initial targets for Stockists:*

- Supplies to 10 retailers with above targets = $4200 \times 10 = \text{Rs. } 42,000/-$
- Additional income on retails from own counter at similar pastern: = 11,200/-
- Total initial earnings: Rs. 53,200/- (Rupees Fifty Three Thousand Two Hundred) per month.

Suggested initial targets for Distributors:*

- Supplies to 5 stockists with above targets = $28040 \times 10 = \text{Rs. } 2,80,400/-$
- Additional income on retails from own counter at similar pastern: = 14,004/-
- Total initial earnings: Rs. 2,94,404/- (Rupees Two Lac Ninety Four Thousand Four Hundred Four) per month.

*Initial suggested sales pattern, actual earnings would vary per performance.
